It's fun, has a large variety of characters, it has a good difficulty curve, and if you're in the mood for a fighting game, you can't go wrong with this game. If you pick it up, just enjoy the humor and have fun and you won't regret it, thats for sure. I mean it's pretty simple, but the description is way too long, and it seems like there's too many skeletons on the first map. I'd have preferred something like, "skeleton 1 is in the northern most corner of the room", and then there'd be a "continue" or something like that. It's kinda weird. One thing I'd like to add, is the skeleton's voice is very, very loud. If I were to be in a similar game like this, I'd actually turn my PC volume up. So it was kind of a hassle for me to hear the skeleton's orders. I think it just took me about 5 minutes to figure out how to play the game, I thought it was another type of shmup or something. Now I can beat this game with a friend, I cant say I like it enough to buy the
